Pontesbury Parish

Health

General Health

The 2011 Census asked three questions relating to health and the provision of unpaid care. The questions relate to whether people felt their general health was good, whether they looked after or gave help or support to other family members, friends, neighbours or others and lastly whether their day to day activities were limited because of a health problem or disability.

- At the time of the 2011 Census 49% of people in Pontesbury said that they felt they were in “Very Good Health”, this compares to 46% for Shropshire as a whole.
- 0.8% reported that they were in “Very Bad Health”. This is slightly less than the overall result for Shropshire (1%)

Provision of Unpaid Care

The question asked “do you look after, or give any help or support to family members, friends, neighbours or others because of either; a long term physical or mental ill health/disability? or because of problems related to old age?”

- At the time of the Census 9% said that they were providing 1 to 19 hours of unpaid care a week. This is slightly higher than the Shropshire figure of 7%.
- 1% said they provided between 20 and 49 hours per unpaid care. This is in line with the Shropshire figure of 1%.
- 2% said they provided over 50 hours of unpaid care. This is in line with the figure for Shropshire as a whole (2%) and the figure for England & Wales (2%).

Long Term Illness or Disability

The Census asked “Are your day-to-day activities limited a lot due to a health problem or disability which has lasted, or is expected to last, at least 12 months?”

- 8% said that their day-to-day activities limited a lot due to a health problem or disability. This is in line with the figure for Shropshire of 8%.
- The percentage who reported their day-to-day activities were limited a little was 10%. This is in line with the Shropshire figure of 10%.

Pontesbury Parish
