Where a particular brand of article or service has been referred to in the tender document, alternatives or equivalents which achieve the same result will be equally acceptable. In these cases Shropshire Council will take into account any evidence the tenderer wishes to propose in support of the claim that the product or service is equivalent to the named types.

All tender documents and any accompanying information must be submitted in English. A Contract Notice in respect of this requirement was dispatched on 15 November 2011 to appear in the Supplement to the Official Journal of the European Union.

### Freedom of Information

Under the provisions of the Freedom of Information Act 2000 from 1 January 2005, the public (included in this are private companies, journalists, etc.) have a general right of access to information held by public authorities. Information about your organisation, which Shropshire Council may receive from you may be subject to disclosure, in response to a request, unless one of the various statutory exemptions applies.

Therefore if you provide any information to Shropshire Council in the expectation that it will be held in confidence, you must make it clear in your documentation as to the information to which you consider a duty of confidentiality applies. The use of blanket protective markings such as "commercial in confidence" will no longer be appropriate and a clear indication as to what material is to be considered confidential and why should be given.

### Other Details

Please note that if supplementary questions are raised by any tenderer prior to the closing of tenders and Shropshire Council decides that the answers help to explain or clarify the information given in the Tender Documents, then both the questions and the answers will be circulated to all enterprises invited to submit a tender.

As part of its sustainability policy, Shropshire Council encourages tenderers to minimise packaging, particularly presentational or retail packaging.

If you have any queries relating to this invitation to tender, please contact me on telephone number 01743 252993.

Yours faithfully

- 1.3. As part of a continual improvement strategy, the contractor and the Council shall monitor the use of containers. At 1 month intervals or earlier if circumstances require, the number of containers and frequency of collection at each site shall be reviewed and so the service provision at each site may be reduced or increased as necessary to suit the level of waste arising.

## **5. Legal Requirements**

The Contractor must provide the Council with copies of the following for all waste leaving the site:

- 7.4. The contractor shall survey the access/egress routes to all pick up points with a view to identifying hazards (e.g. pedestrian/vehicle interfaces) and developing a safe system of work (SSW) to reduce the risk from these identified hazards. The SSW must be issued to all drivers and a copy provided to the client for approval.
- 7.5. All vehicles used for collection should adhere to the latest EURO Standard for atmospheric emissions.

## **ANCILLARY SERVICES**

### **9. Additional Collections**

- 9.1. Where excess waste has been generated or additional collections are requested the Contractor should make arrangements within 48 hours and the charge levied should be at the same rate as usual collections.

### **10. Skip service**

- 10.1. The Contractor shall provide a standard price for skip / FEL container hire services. There is no currently estimate for the amount of work offered here but on an ad-hoc basis individual departments will need to hire in skips.
- 10.2. The majority of this waste will be inert construction and demolition wastes i.e. brick/concrete/gypsum products from minor project works. As such we would expect to see proposals which can offer an opportunity for this waste to be recovered and for this to be competitively priced accordingly

### **11. Collection of food waste**

- 11.1. Many of our sites include canteens and kitchen facilities which produce significant amounts of food waste. At present there is almost no segregation of this material and it goes in the general waste to landfill (or in some premises down the sink to sewage disposal via macerator units). As part of our commitment to sustainability we would like respondents to outline cost-effective proposals for the collection of source-separated food waste. Your proposal should detail operational plans to include as a minimum containment and collection frequency which can be offered and requirements for the client in terms of separation.
- 11.2. It is likely that, should any Council buildings wish to take any such proposal further this would be initiated as trial in one or two buildings before a full roll out. Please provide a price for collection and treatment with delivery to a suitable (ABPR compliant) facility of the contractors choosing.

### **12. Waste Reduction**

- 12.1. The Council is keen to reduce the amount of waste produced and would look favourably upon additional support which contractors may be able to provide for example provision of compost bins or support with employee awareness schemes.

### **13. Collection of hazardous waste**

- 13.1. Where the client requires hazardous waste to be removed by the contractors it is to be accompanied by an appropriate COSHH material safety data sheet.
- 13.2. The discovery of any medical waste, and hypodermic needles, that may have been in contact with body fluids found on site must be reported to the Client who will then arrange for safe and legal disposal.

### **14. Management Information**

- 14.1. With the submission of each monthly invoice, the Contractor shall provide (electronically) the following:
- Total kg of waste and recycling collected at each site
  - Total number of waste and recycling collections
  - Appropriate Waste Transfer Notes
  - Exceptions Report outlining any issues e.g. contamination
- 14.2. The Contractor must have the ability to submit electronic reporting of all weights within 7 days after the end of each calendar month along with their invoice.

### **15. Health and Safety**

- 15.1. All contractors must comply with both the letter and spirit of the law with regards to Health and Safety at Work. The Contractor's methods of handling and disposal of waste shall conform to the General Duty of Care required by the Health & Safety legislation.

### **16. Environmental**

- “Our vision for Shropshire is to stabilise and progressively reduce our environmental footprint”.**
- Sustainability is a corporate value, and the council recognises the impact that its day to day activities have on the environment and the importance of managing the resources used. We aim to reduce our resource consumption as an authority and promote sustainable practices throughout our organisation, with partners and the county as a whole and

we expect our contractors to demonstrate how they too will work towards delivering this vision. This section has been moved from end of document

- 16.2 The Council is strongly committed to sustainable development and has set ourselves stretching targets to reduce the CO2 associated with our activities. All contractors must adhere to the tenets of our sustainability policy which can be viewed here  
<http://www.shropshire.gov.uk/sustainability.nsf/open/BFD6EDBDAB7263F48025750E0046E6E9>.
- 16.3 The Contractor is to take all reasonable steps to avoid accidental spillages or discharges to the surface water drainage system. The Contractor shall provide a method statement showing what steps will be taken in the event of a spillage, which must include automatic notification of the Council.
- 16.4 The Contractor shall prohibit employees from causing any unreasonable disturbance whilst on the SC premises.

## **17. Audit**

- 17.1. It is important for the Council to have a comprehensive picture of the waste management service and to be able to demonstrate to the public the full detail of this. As such the Council may undertake periodic audits and site visits of the later stages and final destinations of their waste. This allows the service provider to demonstrate that steps have been taken to prevent the illegal treatment of waste.
- 17.2. The Contractor shall ensure that there is an auditable trail for the collection, transfer and recycling or disposal of waste. This process should be mapped out in your proposal. The Contractor shall have a duty to co-operate with this process and supply any information requested by the Client.
- 17.3. Based on your current main sub-contracting arrangements, please complete the table in Appendix 4.

## **18. Contract Management**

A suitable backup contact should also be appointed by the Contractor to cover for the Contract Manager if not available through sickness or leave.

- 18.2. The Supplier shall also provide the Council with a telephone number which will be answered at all times in case of emergencies.
- 18.3. The Council will nominate a contract manager (the “Client”) to be the main point of contact at the Council and details for this person will be provided to the Supplier. The Council will also provide a different point of contact in times of absence, e.g. during periods of holiday and sickness. These details will be provided to the Supplier.
- 18.4. The Council will encourage a partnership approach to the management of the contract. As part of this, the Contract Manager and Client shall be expected to have a formal meeting or telephone discussion at least monthly to ensure the continued success of the contract.

- 10.2** In certain circumstances, and in accordance with the Code of Practice issued under section 45 of the Act, Shropshire Council may consider it appropriate to ask you for your views as to the release of any information before we make a decision as to how to respond to a request. In dealing with requests for information under the Act, Shropshire Council has to comply with a strict timetable and it would therefore expect a timely response to any such consultation within five working days.
- 10.3** If, at any stage of this tendering process, you provide any information to Shropshire Council in the expectation that it will be held in confidence, then you must make it clear in your documentation as to the information to which you consider a duty of confidentiality applies. The use of blanket protective markings such as “commercial in confidence” will no longer be appropriate and a clear indication as to what material is to be considered confidential and why should be given.
- 10.4** Shropshire Council will not be able to accept that trivial information or information which by its very nature cannot be regarded as confidential should be subject to any obligation of confidence.
- 10.5** In certain circumstances where information has not been provided in confidence, Shropshire Council may still wish to consult with you as to the application of any other exemption such as that relating to disclosure that will prejudice the commercial interests of any party. ## **12.0 E-Procurement**

If in the opinion of the Council such substantial payments appear excessive in relation to the requirements of the Contract the Council reserves, without prejudice to any other right to reject any Tender it may have, the right to require the Tenderer to spread such proportion of the costs as are considered excessive over the duration of the Contract.

Assessment	Mark	Interpretation
<b>Excellent</b>	<b>10</b>	<i>Exceeds the requirement. Exceptional demonstration by the Tenderer of how they will meet this requirement by their allocation of skills and understanding, resources and quality measures. Response identifies factors that demonstrate added value, with evidence to support the response.</i>
	<b>9</b>	
<b>Good</b>	<b>8</b>	<i>Satisfies the requirement with minor additional benefits Above average demonstration by the Tenderer of how they will meet this requirement by their allocation of skills and understanding, resources and quality measures. Response identifies factors that demonstrate added value, with evidence to support the response.</i>
	<b>7</b>	

<b>Acceptable</b>	<b>6</b>	<i>Satisfies the requirement. Demonstration by the Tenderer of how they will meet this requirement by their allocation of skills and understanding, resources and quality measures, with evidence to support the response.</i>

	<b>3</b>	
<b>Serious Reservations</b>	<b>2</b>	<i>Satisfies the requirement with major reservations. ### **Price Evaluation and scoring**

The most competitively priced tender will receive the maximum percentage for price being 60%. Less competitive tenders will receive a % that represents the difference in cost between that tender and the most competitively priced tender.

Price will be evaluated by the prices per lift tendered in Section H question 1.1 of this document.

Each price per lift for each material will be added together to give a total basket price for each material. The following weightings will be applied to the total basket price for each material:

Dry Mixed Recyclables = 1

Office Paper Recycling = 1

Residual Waste = 2

Confidential Waste Paper Recycling = 2

The total overall basket price will be calculated by adding together the total basket price for each material as calculated above applying the weightings shown. The total overall basket price will then be used to allocate marks as stated above.
