

Supporting Families Through FREE Early Help Network Meetings & Events - Summer Term 2024

Early Help Network Meetings are held every term in each network area. These meetings are an opportunity for professionals from all agencies working with children, young people or their families to listen to guest speakers, receive updates in the Early Help arena and share information about services available or issues affecting families within the relevant network area. The meetings are held via Microsoft Teams so ideally professionals should have Microsoft Teams enabled on their laptops. Dial in to the meetings will be possible but will not provide such a great experience as connecting in through Microsoft Teams.

Early Help Network Events are held once a term in the South, North and Central areas. These events are 'market-place' style events with local organisations providing information on the support or services they can provide to children, young people or their families in the area. Please drop in anytime during the opening hours of the event to network face to face with everyone attending and pick up information which may be useful to the families you work with.
